COVERS RICHEST GOLD AREA IN CALIFORNIA

The Nevada City Nugget helps your city and county to grow in population and prosperity. By subscribing to, and advertising in the Nugget, therefore, you help yourself.

Vol. 10, No. 72. The GOLD Center NEVADA CITY, CALIFORNIA The County Seat Paper MONDAY, JULY 20, 1936.

Thinking Out Loud

H. M. L.

In the last election vile whisperings were instrumental in defeating some of the incumbents in office who had well proved their worth as public servants. It is deplorable condition that any voter should be so credulous, so quick to suspect corruption among those who hold public office that he would even listen to defamations circulated on the streets.

We wish to state here and now our preference among those who are candidates for office this fall, and give the reasons therefor. For Congressman we prefer Harry L. Englebright; for State Senator R. L. P. Bigelow; for assemblyman, Jesse Mayo and for Supervisor, Cary Arbogast.

It should go without saying that the Nugget will support Harry Englebright in his campaign for re-election to the House of Representatives. We know of no California Congressman who has served his district with more devotion, who has overcome more obstacles in that service, or who has accomplished one-half as much as Congressman Englebright has for this district. Persevering in the face of every discouragement, in a four year effort he gave to California a plan for the rehabilitation of placer mining, obtained the $6,000,000 appropriation for debris dams, and this great scheme for reviving hydraulic mining and recovering the vast quantity of gold in California gravels, now rests for consummation squarely on the shoulders of the owners of these deposits.

R. L. P. Bigelow has spent the best part of his life and his best years in making this district, Sierra, Nevada and Placer, not only a better place in which to live and build homes, but through his recommendations and active campaigns he has made the forest of the Tahoe area one of the greatest recreational and sports areas on the Pacific Coast. The roads he has planned and built, the bridges he has constructed, the fire trails he has built, and the telephone lines, all the result of wise planning over a long term of years, today bear fruit. Every man, woman and child in these three counties and beyond are beneficiaries of Dick Bigelow. It is unthinkable that the voters of these counties, by an overwhelming majority, will not wish to continue him in the public service, this time in the state senate.

Jesse Mayo we have known for many years, both as a newspaper publisher and as a legislator. His record in the state assembly has been one of devotion to the primary interests of the mountain counties which he represents. The mining, the grazing and the timber interests he has defended against ignorant and often vicious legislation. The gold mining country has never had a better champion in the state legislature.

Nearly four years ago on arriving here, Cary Arbogast had just been elected Supervisor for the Nevada City district. The Nugget had supported him. In the intervening time nothing has transpired to change the allegiance of this newspaper. That first winter in his term of office was the worst since '89. The snow was deep and everlasting. The roads to the mines were blocked but the men whose livelihoods depended on mining had to get to their work. Our citizens will remember that Cary Arbogast got out with a tractor and big sled and got practically all of the miners to their jobs. He employed extra help, but, he himself was out early and late steering a tractor and bull dozer, clearing the roads to the mines. He has shown the same whole-hearted and rugged devotion to public service through three and one-half years of his term and we believe the citizens of his district will return him to office by a very large majority. We have so many fatheads in swivel chairs in public office, that it is a positive pleasure to be able to recommend a man like Cary Arbogast for re-election.

Those are the candidates we are going to vote for. We commend them to our readers and withiut disparagement of others who are contending for those offices. It is the right of any qualified citizen, often of unqualified citizens, to run for office. It is our American system, and it is a good system. As a rule it works well. But the thing that often discourages good upstanding men from running for office is the thought of the false and vilely malicious stories which will be circulated against them. Often these yarns rise like a novious gas from the depths of human beastliness and bubble to the surface. Persons who repeat such stories are the scarabs and jackals who undermine our democracy.

ROAD BOOSTERS TOUR TOMORROW TO DOWNIEVILLE

Forty road boosters from other counties will attend the big breakfast tomorrow morning at the National Hotel according to a statement of Fred E. Conner, president of the Nevada City Chamber of Commerce, who received word to this effect from William Boucher, Manager of the Sacramento district of the State Chamber of Commerce.

All members of the Nevada City chamber and all citizens interested in good roads are urged to attend this breakfast, tomorrow morning. There will be no speeches, only an informal discussion of the Downieville highway, a tour of which will follow immediately the breakfast is concluded. The breakfast hour is 8 o'clock and the start of the tour is scheduled for 9:30 o'clock.

A large delegation of Nevada City chamber members and citizens has promised to participate in the drive to Downieville. On arrival there, Tony Lavezola of the St. Charles Hotel has promised a notable luncheon, and it is expected that fully eighty persons will sit down to luncheon there. There will be a general discussion of Downieville highway problems.

INFANT SUCCUMBS TO PNEUMONIA ATTACK

Walter L. Williams, Jr., a year old passed away at the Nevada City Sanitarium Sunday morning from an attack of pneumonia. His parents are Mr. and Mrs. Walter L. Williams of Pike City.

Services will be held in the Holmes chapel at 4 o'clock Tuesday afternoon. Interment will be in the Pike City cemetery. Rev. H. H. Buckner of the Methodist church in this city will officiate. Holmes Funeral Home has charge of arrangements.

NATION'S DEFICIT FIGURE DEPENDS ON VIEWPOINT

Secretary Morgenthau announced that the national debt stood at a little less than $34,000,000,000 when the Treasury closed its books at the end of the fiscal year. That is an increase of almost precisely $13,000,000,000 since the Roosevelt administration entered office. Does this $13,000,000,000 accurately represent the cost, to date, of the New Deal?

1. Treasury officials point out that the figure of $13,000,000,000 is a "gross" and not a "net" increase. That is, it fails to take arcount of the much larger cash balance on hand today than at the beginning of the Roosevelt Administration.

2. Republican critics contend however, that this does not tell the whole story. Entirely aside from the debt as reported by the Treasury, there are certain "contingent" liabilities of the government. These consist primarily of bonds of the Home Owners Loan Corporation and the Federal Farm Mortgage Corporation—bonds now guaranteed by the government as to both principal and interest. About $4,700,000,000 is now outstanding in such bonds.

The impartial observer, therefore, can take his choice between a minimum Democratic estimate of $6,800,000,000 and a maximum Republican estimate of $15,500,000,000. Which figure will prove in the long run to be more accurate depends upon events which have still to be recorded. The "contingent" liabliities (which the Republicans emphasize) will become actual liabilities if, and to the extent that, the government is eventually compelled to make good on the bonds it has guaranteed. The "recoverable items" and the "stabilization funds" (which the Democrats emphasize) have still to be liquidated, and no one can now estimate the extent to which the proceeds of this eventual liquidation will reduce the national debt.

Meantime, what is certain is that the debt has reached a new high mark, whether measured in terms of "net" or "gross" The chief problem in Washington today remains the task of balancing the national budget.—New York Times.

STATE P. T. A. BOARD BANS PARTISANSHIP

The State Board of Managers of the California Congress of Parents and Teachers at its meeting in San Diego, July 13 and 14, calls attention to its members, especially its officers, to the bylaws which read:

"The name of the Congress or of its branches, or the name of any of its members in his or her official capacity shall not be used in any connection with any political interest."

We urge that our members pay particular attention to these policies and that before engaging in any particular activity even as individuals, they consider carefully whether or not their active participation will emberass the Congress and should act for the best interests of their work.

The California Congress of Parents and Teachers went on record as opposing the repeal of the sales tax, which imposes the single tax.

HAMILTON EDDY DIES OF INJURIES

Mr. Hamilton Eddy, specimen boss as the Sixteen-to-One mine at Alleghany, who received a badly fractured leg in an accident at the mine last week, passed away at an early hour Sunday morning in Jones Memorial hospital in Grass Valley.

Mr. Eddy was a native of Angels Camp, Calaveras county. His late brother, John Eddy, being born in Scotland before the family came to the United States. Mr. Hamilton Eddy was 77 years of age and had spent most of his life time in Nevada and Sierra counties, where he was engaged in mining. Mr. Eddy was superintendent of the Cole mine below Grass Valley. He was superintendent of the Delhi mine at North Bloomfield for many years. Eddy went to the 16-to-1 mine at Alleghany first, as foreman and then advanced to his present position. He has resided at Alleghany many years.

Mr. Eddy with his wife and two daughters, Bernice and Marceline, owned and resided in the house now owned by Mr. and Mrs. Ed Murchie on upper Broad street. Mrs. Eddy came up from San Francisco and is attending to funeral arrangements. The body is at Holmes Funeral Home in Grass Valley.

ALLEGHANY MAIL CONTRACT IS SOLD

A deal was completed today in which Perry Jones sold his U. S. mail contract between Nevada City and Alleghany to J. J. Connell of Alleghany. About two years ago Mr. Jones, formerly of Princeton, placed a bid lower than Frank Davies and Sons, and won the contract for the mail. Davies retained the passenger business. Davies and sons and Mr. Davies' father before him had operated the route successfully for many years. This is one of the mountain routes that is particularly bad in stormy weather an account of snow at high altitudes.

TRUCK STOLEN

Fred Johnson's truck was allegedly stolen some time during Thursday night from a placer mining property near Marsh's old saw mill east of Nevada City. The loss was reported to Sheriff C. J. Tobiassen and deputies who are on the lookout for the machine. Distributors on several machines near the saw mill were damaged so that no pursuit could be made.

Mr. and Mrs. Joe Wilhoite returned Sunday from a week's vacation at Oroville. They had fine luck catching trout and black bass in the nearby streams. Mr. Wilhoite is manager of the Nevada City Safeway store.

CHAMBER WILL MEET TONIGHT

The Nevada City Chamber of Commerce will meet this evening and all members are specially urged to be present. Final arrangements for the road tour to Downieville and beyond will be made and plans will be made for auto conveyance for all those who desire to go. It is also expected arrangements will be completed for closing up all details and accounts of the recent Fourth of July celebration.

NEW LOCATION NOTICE LAW NOW IN EFFECT

The new state law, sponsored by Senator A. L. Pierovich of Jackson, Calif., covering mineral locations in California became effective July 1. Under the new law, every new location must be marked by a stone monument at least eighteen inches high, or a post not less than four inches in diameter. Within ninety days of location, locator must sink a discovery shaft to a depth of at least ten feet exposing the depth on which discovery and location is based, or that he shall drive a tunnel, adit or open cut to at least ten feet below the surface.

It is further required that in placer mining in locations containing more than twenty acres the locator shall, within ninety days perform at least $1.00 worth of work for each acre.

This legislation, of course, refers only to new locations, as it was not the intention of Senator Pierovich, as the author of the bill, to increase the burden on the present owners of lode and placer claims.

PAYROLL TAX IS DUE JULY 31

The first payment under the California Unemployment Reserves Act, the so-called "Payroll Tax" is due not later than July 31, 1936.

The California Unemployment Reserves Commission in Sacramento has mailed out Form CURC No. 3 on which the report, accompanied by check, cashier's check or money order; should be submitted. These forms have gone to all companies which have registered with the commission.

The employer contributes nine-tenths of 1 per cent of his payroll for the six months period. The employee contributes .45 of 1 per cent of his pay. The employer however is responsible for deducting this amount from the employee's wages, and must make the return for himself and for employees.

Firms employing less than eight people are exempt.

For the purposes of administration, the state has been divided into three sections, with offices in Los Angeles, San Francisco and Sacramento. The Los Angeles office handles the southern part of the state to and including Kern county and on the coast to King City, San Francisco handles territory from the Oregon boundary, south to King City, western boundary being approximately the crest of the Coast Range mountains. The Sacramento office handles all of the interior California from Kern county north to the Oregon line.

In case employers employing more than eight people do not receive the report blanks, it is suggested that they communicate with the office within their district.

SUPREME COURT CASE

Considerable confusion has arisen as the result of a case now being considered by the Supreme Court. The point under consideration is to determine whether Section 16½ of Article 7 of the State Constitution prohibits California's paying into the federal unemployment fund as the act provides.

This section forbids the transmission of state funds outside of California. The Unemployment Reserves Commission contends that sending the monies collected under the State-Federal acts to the federal treasury does not constitute the depositing of state funds outside California. They maintain that the monies collected are not state funds but that the state treasurer merely acts as the agent for monies deposited in trust with the federal treasurer by contributions under the act; that these monies can be used for only one purpose and that this exempts them from classification as state funds.

MAY ASK AMENDMENT

If the Supreme Court decides adversely to the state in this suit and it is subsequently ascertained that an alternative provision for keeping the state's money within California is not valid, a movement will be made, Director Carl G. Hyde said, to pass an amendment to the State Constitution.

Without such an amendment, if this case is lost, he said, the State's unemployment insurance plan would be stymied.

If, for any reason, the Unemployment Reserves Act becomes inoperative, what disposition is to be made of the money paid in by employer and employee? No one seems to know the answer to this question. The San Francisco office of the Unemployment Reserves Commission states that the law contains no provisions permitting it to return the money in such case.

Bigelow Candidacy Endorsed by Nevada Co. Democratic Committee

The Democratic Central committee of Nevada County, with S. Lee Leiter, chairman, presiding, last Friday night endorsed the candidacy of R. L. P. Bigelow for state senator from this district, the seventh, which comprises Nevada, Sierra and Placer counties. Placer county's Democratic committee endorsed Bigelow's candidacy over a week ago and is now energetically working for his election.

Committee members state that Nevada county sentiment seems to be unanimously in favor of Mr. Bigelow's election. His long service as Forest Supervisor for this district, and the many improvements carried on throughout the Tahoe area of which he had charge, his civic spirited efforts and active assistance in all projects that advanced the community welfare in his districts have won for him the widest possible support, now that he seeks to be of public service in a new field. The fact that there is no man in the tri-county unit who has a wider circle of friends, it is believed, forecasts for Mr. Bigelow a tremendous majority.

CALIFORNIA TO VOTE ON RECALL OF GOVERNOR

California will have their chance this month to vote for a new governor.

Not at the polls, true—but results of a post-card straw ballot now being conducted by the United Organizations for Progressive Political Action, Los Angeles liberal combine, will heavily influence selection of a candidate to oppose Governor Frank F. Merriam on a recall ballot November 3, political observers felt.

Appearance of the recall on the ballot is a virtual certainty, heads of the "UOPPA" announced last week, after being shown over 150,000 signatures to the recall petition, obtained in less than one month. Circulators have until August 10 to amass the required total of 279,000 names.

The post-card poll was decided upon as a means of fixing public opinion. A list of more than 5000 voters, selected at random from the state's 80 assembly districts, will be asked to indicate a first and second choice among the following leading contenders, Frank O'Brien, executive secretary of UOPPA, said today:

H. Dewey Anderson, educator and assemblwman; Manchester Boddy, publisher; Raymond L. Haight, attorney; Earl Warren, district attorney, Alameda county; John Anson Ford, supervisor, Los Angeles county; J. F. T. O'Connor, controller U. S. currency; Culbert L. Olson, state senator.

RIO VISTA TO OPEN BASS DERBY

California's thousands of fishermen will be delighted to hear that the Fourth Annual Bass Derby, staged by the Rio Vista Chamber of Commerce, is to start with a preliminary contest for 100 extra prizes. This contest is to open on August 1. These prizes will be given in addition to the De Luxe Out-board Motor Boat, Motor and Ttailer valued at $600 and the 100 other prizes for the heaviest striper caught at Rio Vista on Derby day, Sunday, September 27, 1936.

No qualifications are necessary to enter the derby. Beginning August 1, any fisherman can enter the race by having his fish weighed in at one of the many official stations. Your favorite goods store or bait shop will be among them.

The preliminary heats will close September 20 with the prizes awarded at Rio Vista, Saturday evening, September 26. Weight will be the deciding factor; the bigger the fish, the better the prize. In case of tie weights, the over-all dimensions will decide the winners. Striped bass taken from any waters in California during the two months will be eligible.

Where the fish weighs more than 15 pounds it must be double checked at a second weighing station. All necessary data will be recorded at the official stations and forwarded to the judges.

This is a brand new idea in fish derbies and gives every angler a chance to cash in on his favorite pastime. The angler can enter as many fash as he likes.

It is not necessary to have weighed in a fish to compete in the main derby on Sunday, September 27. The only requirement is an angler's license and a fishing card from the derby committee. Headquarters will be open continuously from September 17 until Derby Day so that fishing cards may be obtained in advance. There is no entrance fee whatever and if so desired, the fishing card can be obtained on the day of the derby.

FACTS SET FORTH TO REFUTE VICIOUS YARN

In view of certain cannards set afloat for the purpose of injuring one of the candidates for supervisor, a statement of fact should be sufficient to refute it. H. R. Gordon-Ross served in Troop A, Second U. S. Cavalry in the Philippine Insurrection. At the outbreak of the World War he enlisted in the 18th Canadian Infantry and served for 39 months overseas. After the World War he served in the U. S. Fourth Artillery and later in the 12th Artillery. He was honorably discharged from service on September 24th, 1924 and now receives a small pension, due to injuries received while in service, from the United States Government. The editor of this newspaper has examined all the documents in proof of this statement, and has no other interest in the candidacy of Mr. Gordon-Ross than to set forth the facts and to assure fair play.

NEVADA CITY TEAM DEFEATS ALLEGHANY

The Nevada City baseball team defeated the Alleghany team by a score of 13 to 2 yesterday afternoon on the new baseball diamond at Pioneer Pork in Nevada City. Lou Elkus, of the Plaga Garage who formerly played with the Grass Valley team, has entered the Nevada City team and played fine ball yesterday as center field. Although one of the hottest days of the season a fine crowd of fans turned out to witness the game.

Mr. and Mrs. Charles Myers of Pike City were business visitors in Nevada City Saturday.

Ever Heard The Laws?

(Contributed)

To all the tumult and shouting of the presidential campaign between now and November will be added, in California, the din or argument raging over some half a hundred proposed new state laws that had qualified for the ballot at the deadline hour last week.

What a task this presents to the conscientious citizen! He must say "yes" or "no" to nearly fifty proposed laws—those complicated, technical things over which even supreme courts sometimes disagree.

Already California has so many laws that few citizens can even begin to know them. Take any much-discussed question of the hour, and see how many persons are aware of the law at the base of it. A big stage line applies to operate on the highways. Shouts come from those for it. Shouts come from those against. Yet there, unknown to most on either side, is section 5¼ of the Public Utility Act, which says about granting certificates permitting sage lines to operate:

" . . provided that the railroad commission shall have power . . . to issue said certificates . . . only when the existing passenger stage corporation or corporations serving such territory will not provide the same to the satisfaction of the railroad commission."

That is the law the part of it designed to protect the motorist, to prevent highways from becoming clogged and broken down by flocks of stages operating in cut-throat competition—and yet, how many persons ever heard of that law before?

There are limitless examples of how little we can know of the multitude of laws already on the books. Now we are to be asked in Nevamber to vote on half a hundred more. As conscieutious voters, we are supposed to cast our ballots intelligently.

It is no easy task, these days—this business of being a good citizen.

NEW LEAGUE OF AMERICAS MAY BE INITIATED

LOS ANGELES, July 20.—A new "League of the Americas" to replace participation in the League of Nations may result from the forthcoming inter-American conference to be held at Buenos Aires early this autumn.

More than twenty nations from both North and South America have accepted President Roosevelt's invitation to attend the meeting. Measures for consolidating the peace of the Western hemisphere will be considered.

"Of course a new League will not come immediately," declares Dr. Roland D. Hussey, associate professor of history on the campus of the University of California at Los Angeles, who specializes in Latin-American affairs, "but this conference may pave the way for it."

Latin-American countries, according to Dr. Hussey are losing faith in the League of Nations—due to its failure to cope with the invasion of Japan into Manchukuo, and Italy's conquest of Ethiopia.

"At the present time," he points out, "there is a more friendly feeling between the Latin-American countries and the United States than any other time in history. This friendship movement was started by President Hoover's administration and continued under President Roosevelt."

The feeling of good will which exists at the present time has been stimulated by a definite abandoning by the United States of any imperialistic measures in South America, Dr. Hussey believes. Specific proof of this is seen in the following overtures of the United States in the past five years, he points out: (1) Removal of Marine troops from Haiti and Nicaragua; (2) granting the Philippines their independence; (3) abrogation of the Platt amendment to give Cuba complete freedom; and (4) revision of the United States Panama treaty, removing all allegedly unreasonable control by this nation.

Dr. Hussey is especially interested in the proposed Inter-American court to settle international affairs of the Americas by compulsory arbitration — rather than recourse to war.

STATE PRODUCES LESS THAN TAX BILL OF 1935

The gross value of all soil products of California in 1935, including farm crops, livestock, oil, gold, minerals and lumber, was not sufficient to pay the cost of government for that year, according to a report compiled by the Research Department of the California State Chamber of Commerce.

The cost of government in 1935 was $900,000,000, of which our state and local governments spent $468,000,000. The balance, amounting to $432,000,000, constituted our share of federal expenditures, based on our share of the tax bill.

These expenditures averaged $360 for every person gainfully employed in the state.

However, the State Chamber report points out, the whole bill was not paid last year; much of its accumulated in the form of governmental debts, to be paid later. Had the whole bill been paid last year, it would have taken an increase of more than 40 per cent in taxes.

Among major items of governmental expense noted by the State Chamber report for last year are relief and social welfare, $266,000,000; education, $137,000,000; interest on debt, $94,000,000; national defense, $73,000,000; streets and highways, $70,000,000; protection, $66,000,000; and farm recovery, $61,000,000.

GOOD SERVICE COSTS NO MORE

A modern establishment—a trained, intelligent and courteous personnel — distinctive motor equipment and other evidences of progress and prosperity are NOT an indication that funeral service charges will be high. A successful concern can be built only by serving honestly and well, at prices that are fair and reasonable.

ANCIENT NEVADA CAVE EXPLORED

BERKELEY, July 20.—Five anthropologists from the Berkeley campus of the University of California have completed the excavation of a prehistorically occupied cave in Nevada, which constitutes the first half of an archaeological expedition financed by Mr. and Mrs. Beverly Blackmer of Pyramid Lake, Nevada. The party was in charge of Robert F. Heizer, Lovelock, Nevada and Alex Krieger, of South Pasadena, senior students majoring in anthropology in the University of California.

The party of five dug for six weeks in Humboldt Cave, some thirty miles from the famous Lovelock Cave which was excavated nearly twenty years ago by the University of California and the Museum of the American Indian. Both caves were filled with bat guano, which acted as a perfect preservative for basketry, feathers, cloth, wooden artifacts, and other objects which ordinarily perish within a few years, according to Dr. A. L. Krober, head of the University's department of anthropology. While the Lovelock Cave is larger, guano hunters had seriously disturbed its contents; the Humbolt Cave was intact.

In addition to burials and a large quantity of miscellaneous remains accumulated through the centuries, thirty one caches were discovered in perfect condition, each representing either the material treasures or the sacred paraphernalia carefully stowed away by some aborigine of long ago. Six large cases of specimens have been received at the museum of anthropology and are being unpacked.

The second half of the summer's work which also is being financed by the Blackems, will be spent in the excavation of an Indian mound in the Sacramento Valley.

Other members of the party are Gerald Lance, Fullerton, and Richard Beardsley, San Francisco, of the University of California; and William Wiard of Sacramento Junior College.

WEEKLY COMMENT BY Christian Andersen

Many church singers of both sexes use a vibrato that to the trained ear is not pleasant. Vibrato or, as some call the effect, tremulo, sounds well on an organ but the human voice instrument is not built for that and in consequence the effect is, to me, most unpleasant.

There has been some petty thievery at the swimming pool, nothing of much value has been taken, but the principle is the same and the result is simetimes as damaging as if real valuables had been taken. This is written in the hope that all parents whose children go to the pool will impress them with a respect for other youngsters things, my own have already been on the carpet in this regard.

Radio programs have been a grand source of pleasure to all of us. Lately some of them have been resorting to risque stories and gags of questionable meaning. It is unthinkable that entertainers must resort to smut to put over their program and seems unpardonable that a sponsor seeking public favor for his product will permit this kind of thing.

The United States' position as regards value of our circulating medium is the envy of the world. This section and all the gold producing territory in this country is prosperous because of the price of gold. Many extra men are being employed on many small mines. They owe their jobs to the price of gold. Many merchants in this particular section are making money because of the price of gold. Some one may rise to remark that taxes are greater than before the rise in the price of gold. That is true. But there is still left for the operator a larger margin than before the rise took place.

I do not aspire to be a policeman or a sheriff but it seems to me that either job carries as much responsibility as any I know of. The peace officer is as a matter of fact a soldier. His duties carry him into adventures from which he may not always emerge unscathed. He cannot always take the public into his confidence. The average officer is a good fellow to know. Only a small proportion let the star of authority go to their head and that kind of an officer does not usually stay on the job very long.

With only seven short years to go before being eligible for the Townsend $200 per month revolving pension I should perhaps be one of the most militant in it's favor. But I am not an advocate of the plan for the simple reason that in my ignorance I cannot see an honest way of administering so large an amount of money. The army of chislers would be augmented to unbelievable proportions.

Mr. and Mrs. W. P. Lee have as guests Mrs. Lee's brother, and family, and mother, Mr. and Mrs. L. E. Hovey and two daughters, and Mrs. M. Hovey, of Wyoming. Mr. and Mrs. Hovey and children remained until after July 4th and then left to visit the San Diego fair. Mrs. M. Hovey remained for a longer visit.

Clifford Murphy, business man of Petaluma, arrived in Nevada City Saturday for a week end visit with his nephew, Ralph Murphy and Mrs. Murphy. Coming through the Dakotas and Montana they encountered the severe heat waves.

Social Events

Miss Nada Beeson Weds Edgar Cunningham

Miss Nada Edith Beeson became the bride of Mr. Edgar Cunningham at a pretty and impressive service at the Methodist parsonage this Monday forenoon with Rev. H. H. Buckner performing the ceremony. A few relatives and close friends were present for the ceremony.

The bride is the daughter of Mr. and Mrs. W. W. Beeson of North San Juan and is an attractive and accomplished young woman. The groom is the son of Mr. and Mrs. William Cunningham also of North San Juan, He holds a position as truck driver for Mr. L. W. Lobdell.

Mr. and Mrs Edgar Cunningham are graduates from the Camptonville high school and have a host of friends on the Ridge and in Nevada City who wish them every happiness. They will make their home in an apartment in Nevada City already prepared by the groom.

Mr. and Mrs. H. U. Maxfield of Oakland spent a night in the National Hotel in Nevada City, while enroute to Alleghany, the past week end. They are interested in the 16-to-1 mine at Alleghany.

CHARLES LOBDELL IS SUMMONED BY DEATH

Charles Lobdell, brother of L. W. Lobdell, passed away Friday morning in Grass Valley. A heart attack was the immediate cause of death. The deceased had lived in Nevada county for a little over a year. Many friends mourn his passing. The funeral was held yesterday afternoon under direction of the Holmes Funeral Home. The Rev. H. H. Buckner preached the funeral sermon. Surviving the deceased are: his wife, Mrs. Hattie Lobdell, a brother in Michigan and a brother, H. L. Lobdell of this city.

MURDERED MAN WAS FORMER RESIDENT HERE

Frank W. Powell, grocer, who was murdered last Thursday at his place of business in Sacramento, formerly was a merchant in this city. His death comes as a shock to his many friends here. Police attribute his death to a hobo, who shortly before the murder had made some purchases in the store.

Dr. and Mrs. W. P. Hawkins returned from San Francisco last evening. Mrs. Hawkins visited her mother at Niles, and in San Francisco, while Dr. Hawkins attended the dental convention in San Francisco.

MRS. VIVIAN TAYLOR IS BORNE TO REST

Funeral services were held today for the late Mrs. Vivian Taylor, who passed away Friday morning. Mrs. Taylor has resided in this community for the past three years, coming here from Washington state. A sister living in Illinois, and her husband, Edward Taylor survive. The services were in charge of Holmes Funeral Home. The Rev. H. H. Buckner conducted the service.

Mr. and Mrs. Oscar Odegaard made a trip to San Francisco Sunday. They were accompanied by Mr. Howard Ross and Mr. Marshall Giselman.

Personal

Nearly all members of the Gold Flat Quilting club met at the home of Mrs. Jay Roberts on Gold Flat Wednesday for a delightful afternoon. The luncheon at one o'clock was served out under a grove of big trees near the house.

Dr. Ray V. Chase and wife and daughter, Beverley, left for their home at Las Vegas, Nevada, a few days ago after a visit at the home of Mr. Chase's sister, Mrs. J. K. Osborne and Mr. Osborne.

Miss Louise Arthur of Toronto, Canada, arrived in Nevada City recently to spend the rest of the summer at the home of her uncle, Mr. J. K. Osborne and Mrs. Osborne at Town Talk.

Miss Alice Langman and sister, Mrs. Libby Shields left Sunday for a vacation in Yellowstone National Park and Salt Lake City.

Mr. and Mrs. J. K. Osborne of Town Talk have had as guests Mrs. Osborne's brother, and family, Mr. and Mrs. Glenn I Chase and daughters, Misses Helen and Betty. They left for their home in Hollywood on Tuesday.

Mr. and Mrs. R. C. Isenhauer and children of the bay district spent the week end at Pike City. Mr. Isenhauer, mining engineer, has the option on the Alaska mine.

Ross F. Taylor, engineer of Downieville, visited at the home of Charles Guenther Sunday while enroute home from Sacramento He stated the thermometer registered 119 in Auburn at 10 o'clock that forenoon.

Mr. and Mrs. William Gracey of San Francisco are visiting their son, Allan Gracey and Mrs. Gracey, in Grass Valley and friends in Nevada City.

Mr. and Mrs. George Gibson, who have resided in Nevada City for several years, are moving to Alleghany this week to reside. Mr. Gibson has secured a fine position with the 16-to-1 Extension mine. Mrs. Gibson is president of the Ladies Aid Society of the Methodist church, in Nevada City and Mr. Gibson is a philatelist having one of the finest collections in this section. Their many friends regret to see them leave.

Mrs. R. J. Tremaine and daughter Miss Esther Tremaine, and Mrs. E. Pettingill left Monday for Carmel for a vacation.

Mr. and Mrs. George Fortier and son of Pacific Grove are visiting Mr. Fortier's mother, Mrs. C. M. Fortier in Nevada City. Mrs. Fortier has been visiting with a sister in Los Angeles and returned with her son and family.

Mr. and Mrs. Charles Wyant and daughter, Margaret, of Nevada City, were business visitors in Berkeley last week.

H. F. Sofge of the state printing office, who is establishing his home here, has recently added a $200 sleeping porch to his residence in Willow Valley, and has repainted the exterior of the building. Ray Chapman of Sacramento is a guest over the week end.

Mr. and Mrs. Samuel T. Farquhar and son, Francis of Berkeley were week end guests at the H. M. Leete home. Mrs. Farquahar is Mr. Leete's sister. They were enroute to Berkeley after a vacation at Salmon Lake.

FISHING ON GROUSE RIDGE

Mr. and Mrs. C. Muscardini, Mrs. Larson Henwood and two children and Mr. Elisha Curtis spent Sunday fishing on lakes and streams near Grouse Ridge lookout above Washington. They caught some nice fish, and enjoyed the beautiful scenery. The lookout on Grouse Ridge is 7,800 feet elevation and Mr. Will Carey, in charge of the station told them he had reported a fire on Mt. Diablo at the bay, since going to camp June 20. The mountain can be seen plainly on clear days. About 100 persons have visited Grouse Ridge lookout so far this season.

C. E. Clark, who operates the Relief Hill and Lucky Jane gravel mines at Relief Hill was a business visitor in this city Saturday. He suffered an injury to his back while working at the Lucky Jane a few days ago. The injury is painful.

FRIGIDAIRE

WITH THE "METER-MISER"

MEET THE "Meter-Miser"

Quiet · Unseen · Trouble-free

IT CUTS CURRENT COST TO THE BONE

The New Frigidaire's spectacular cold-making unit gives more cold for less cost, because of outstanding design with only three moving parts! Permanently oiled, precision built, completely sealed against moisture and dirt.

MEETS ALL FIVE ★ STANDARDS FOR REFRIGERATOR BUYING

★1. LOWER OPERATING COST
★2. SAFER FOOD PROTECTION
★3. FASTER FREEZING—MORE ICE
★4. MORE USABILITY
★5. FIVE-YEAR PROTECTION PLAN

Let us demonstrate what remarkable savings they effect for you ..

●It will take you but a few minutes to see our demonstration of the FIVE STANDARDS. Yet these few minutes may yield you many dollars in savings for years to come. For the New Frigidaire with the Meter-Miser is not only exceptional in beauty and convenience, but also in economy and dependability.

The Meter-Miser mechanism keeps current cost at rock bottom, yet maintains safe food temperatures even in the hottest weather. What's more, it freezes large quantities of ice with amazing speed, and is protected for Five Years against service expense, for only $5 included in the purchase price.

This splendid performance is matched by a wider, roomier cabinet with much more shelf space in front, Full-Width Sliding Shelves, Portable Utility Shelf, Double-Range Cold Control and a host of other conveniences. Yet Frigidaire prices are lower and terms of purchase more attractive! You can verify all this for yourself at our demonstration.

On Guard!

Food-Safety Indicator built right into the cabinet. Your assurance that foods are kept at Safety-Zone Temperature, below 50 degrees and above 32 degrees.
